- 1. The list of references to be printed in the reissue patent should include both the references cited during the original prosecution as well as the references cited during the prosecution of the reissue application. Therefore, applicants are required to submit all references of record in the patent on a form 1449 suitable for printing in the reissue.
- 2. The reissue oath/declaration filed with this application is defective because it fails to specifically identify the at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

The reissue oath or declaration filed with this application is defective because it fails to particularly specify the errors and/or how the errors relied upon arose or occurred as required under 37 CFR 1.175(a)(5).

It is not sufficient for an oath/declaration to merely state "this application is being filed to correct errors in the patent which may be noted from the changes made in the disclosure."

Rather, the oath/declaration must specifically identify an error.

In addition, it is not sufficient to merely reproduce the claims

Art Unit: 2713

with brackets and underlining and state that such will identify the error. See In re Constant, 827 F.2d 728, 729, 3 USPQ2d 1479.

All reissue oaths or declarations must comply with 37 CFR 1.175(a)(5) by "particularly specifying the errors relied on, and how they arose or occurred". 37 CFR 1.175(a)(5) has two specific requirements, both of which must be complied with in the reissue oath or declaration. This section requires applicant to particularly specify (1) "the errors relied upon" and (2) "how they arose or occurred."

It is particularly important that the reissue oath or declaration specify in detail how the errors arose or occurred. Included are inadvertent errors in conduct; i.e., actions taken by the applicant, the attorney, or others before the original patent issued, which actions are alleged to have caused the defect in the patent. "How" includes when and under what circumstances the errors arose or occurred. This means that the reissue oath or declaration must specify the manner in which "the errors" "arose or occurred" Hewlett - Packard Co. v. Bausch & Lomb, Inc., 882 F.2d 1556, 11 USPQ2d 1750 (Fed. Cir. 1989); In re Weiler et al., 229 USPQ 673 (Fed. Cir. 1986). For example, the

Art Unit: 2713

reissue oath or declaration must indicate when and the manner in which the reissue applicant became aware of the prior art or other information and of the error in the patent; such as, for example, through discovery of prior art or other information subsequent to issuance of patent, knowledge of prior art or other information before issuance of patent with significance being brought out after issuance by third party through allegations made in litigation involving the patent , etc. It is particularly important that the reissue oath or declaration adequately specify how the errors arose or occurred. If the reissue oath or declaration does not particularly specify "how," i.e., the manner in which the errors arose or\occurred, the Office will be unable to adequately evaluate reissue applicant's statement in compliance with 37 CFR 1.175(a) (6) that the "errors arose `without any deceptive intention' on the part of the applicant"; see MPEP § 1414.04.

3. Claims 1-34 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
